

Quality, Health, Safety & Environment (QHSE) Policy.

Ramky Enviro Engineers Limited (REEL) is committed to comply with the requirements of QHSE Management System and continually improve its effectiveness by providing appropriate process, resources, principles, training, and work culture in all its activities of business and operations.

To meet this commitment achieving QHSE objectives, REEL shall:

- Ensure customer needs and satisfaction with management methods for delivery of better services.
- Cultivate a work culture where our policy is understood, implemented and maintained by employees at all levels within the organizations.
- Develop and maintain a motivated workforce trained for effective Management system and emergency situations.
- Ascertain that appropriate resources are made available to implement the policy and continuously review the policy's relevance with respect to legal, community, and business development.
- Provide information on QHSE policy to the concerned authority & interested parties and converse with business associations to facilitate their health and safety performance improvement with the intent of their individual obligations.
- Ensure that its operations comply with the applicable laws, regulation and statutory provisions.
- Ensure conservation of energy and natural resources.
- Adapt appropriate and best practices in operation, safety systems and monitor, control and minimize the risk and impact of activity.
- Continually improve its QHSE performance by setting objectives & targets and conduct regular audits to ensure that operations are in compliance with the management system requirement.
